SERIOUS PRODUCTS FOR SERIOUS USERS

Did you ever wonder why so many marine professionals insist on Mustang?
It's because every stitch that comes out of Mustang Survival is made as though lives depend on it.
And lives do.

In 1967, the now legendary Mustang Survival Floater Coat™ set a whole new standard for survival apparel. Through constant innovation and an unwavering dedication to excellence, we've continued to set new standards ever since. Our survival apparel not only remains unsurpassed in flotation and hypothermia protection, it also provides superior mobility and durability. We are focused on saving lives and proudly make innovative products to keep our recreational customers and their families safe. We also

deliver leading edge protection to the most demanding users around the world, including the US Navy, US Air Force, Coast Guard, NASA, the Canadian Armed Forces and law enforcement organizations. It is our commitment to quality that has earned our facilities ISO 9001 registration, the highest of all international standards. It is our guarantee that you are receiving superior quality in design and manufacturing. Every detail of every garment we make is treated as though lives depend on it.

INFLATABLE FLOTATION

The best Personal Flotation Device (PFD) is the one you wear. There are many choices when it comes to picking the PFD that will keep you safe on the water.

COMFORTABLE & STYLISH

Inflatables are stylish, lightweight, low profile, flexible, and very comfortable to wear. They won't get in the way whether you're reeling in the big one, cruising or paddling to your next destination.

COAST GUARD APPROVED

Inflatable PFDs are Coast Guard approved and come in a variety of stylish colors – even camouflage. After inflation, it will give you more than twice the buoyancy of a foam vest.

REUSABLE

Inflatables can be used over and over again. Purchasing a re-arm kit at the same time as your PFD is a great idea – if the unexpected happens, you'll be back on the water in no time.

THE BEST JUST GOT BETTER.

HIT HIT™ INFLATABLE PFD
AUTO HYDROSTATIC

MD3183 (auto)
With Sailing Harness: MD3184 (auto)

The award-winning HIT™ Inflatable PFD with Hydrostatic Inflator Technology is Mustang Survival's top-of-the-line inflatable PFD. Designed for serious users with exclusive technology that enhances safety and minimizes maintenance, this is our most popular inflatable PFD. This PFD provides excellent safety, is designed for use in severe weather, and requires minimal maintenance.

FEATURES

- The only USCG-approved inflatable PFD with Hydrostatic Inflator Technology
- New zippered pocket for your phone, keys or license
- Improved fit around shoulders and neck for all day wear
- New easy-to-clean ComfortCollar™ improves comfort and durability
- Bright yellow inflation cell with SOLAS reflective tape, safety whistle and strobe light attachment
- D-ring
- Inflator is maintenance free for 5 years (unless inflated)
- Available with harness rings that exceed ORC standards (MD3184)

SIZE	Adult Universal Age: 16 yrs + Weight: 80 lbs (36.3 kg) + Chest: 30-52" (76-132 cm)

M.I.T. M.I.T. 35
MEMBRANE INFLATABLE TECHNOLOGY™

MD2085 (manual) / MD2087 (auto)

Inspired by our first ever inflatable PFD, the M.I.T. 35 boasts 35 lb buoyancy when inflated. It features an inspection window and access flap to make inspecting and maintaining your PFD a breeze, a hidden pocket for convenient storage of your boating essentials and a flexible fit that moves with you all day long.

FEATURES

- 20% lighter than competitor products
- Soft and comfortable to wear
- Easy to use and maintain
- Provides twice the flotation of most foam PFDs
- Interior mesh pocket

MEMBRANE INFLATABLE TECHNOLOGY™

MD2010 (manual) / MD2012 (auto)
Camo: MD2010 CM (manual) / MD2012 CM (auto)

Good things DO come in small packages. Proving good designs never go out of style, the M.I.T. 22 is based on the first inflatable PFD ever designed by Mustang. Lighter and simpler, this little PFD packs a lot of benefits into its compact figure.

FEATURES

- Exclusive membrane inflatable technology
- 22 lb buoyancy when inflated
- Weighs up to 20% less than competitors products
- More flexible fit
- Reduced chafing and fatigue
- 1 fold, easy to use design
- Simple to inspect and maintain
- Must be worn to count towards carriage requirements

INSPECTION & MAINTENANCE

Regular inspection and maintenance of your inflatable PFD will ensure it is ready to go when you need it most.

The best way to inspect your inflatable is to orally inflate it through the oral inflation tube found by opening up the left side of the PFD. Let the PFD sit overnight to make sure it retains all of the air. In the morning, release the air, check the CO₂ cylinder for corrosion and punctures and make sure the CO₂ cylinder is securely fit into the inflator.

If you have a bobbin-activated automatic inflatable PFD, you should also check the expiry date on the bobbin. People boating in humid or wet conditions should change their bobbin regularly to prevent inadvertent inflation.

With everything in good condition, you can now re-pack your PFD and head safely out to sea.

INFLATABLE BELT PACK PFD
MD3075

Recommended for paddlers, swimmers, wade fishermen and general recreational boaters. Fits around the waist like a belt, staying out of the way until you pull the inflation cord to provide 35 lb buoyancy. Easy to wear and maintain. Features 3F inflator for easy inspection – green means its ready to go! A great option for people looking for minimal bulk and wanting to control when their PFD inflates.

FEATURES

- Stays out of the way until activated
- Lightweight, ergonomic fit
- Manual inflation – inflates by pulling activation cord
- Oral inflation tube included on product as secondary inflation option
- 35 lb buoyancy when inflated – more than 2x traditional foam PFDs
- Safety whistle
- Reflective piping on outer shell

SIZE	Adult Universal Age: 16 yrs + Weight: 80 lbs (36.3 kg) + Chest: 30–52" (76–132 cm)
COLORS	Black/Carbon Mossy Oak Duck Blind®
APPROVAL	USCG Type V with Type III Performance
RE-ARM KIT	MA7203

RESCUE STICK™
MRD100

Incredibly easy to use, the Rescue Stick™ provides rapid flotation assistance to a person at risk of drowning. Simply remove the baton shaped Rescue Stick™ from its waterproof bag and throw near the person. Once contact is made with the water it automatically inflates in seconds to a large horseshoe shape that can keep the victim's head above water and afloat until help arrives.

FEATURES

- Can be thrown accurately 100 feet or further
- Automatically inflates in seconds when immersed in water providing rapid emergency flotation
- Provides 35 lb of buoyancy (more flotation than a typical ring buoy)
- Can provide emergency flotation for multiple victims
- Easy to re-arm and repack

HIT HYDROSTATIC INFLATOR TECHNOLOGY (HIT™)

Exclusively available from Mustang Survival in North America, the HIT™ inflation technology has been used for over 10 years by professional and recreational users. Inflatable PFDs with HIT™ technology will only inflate if submerged in 4 inches or more of water and will not prematurely inflate due to rain, spray or humidity.

M.I.T. MEMBRANE INFLATION TECHNOLOGY (M.I.T.™)

M.I.T.™ is the next generation of inflatable PFD technology designed by Mustang scientists. Made from stretch-fabrics derived from the medical industry, M.I.T.™ PFDs use less fabric, are 20% lighter than other inflatables, and offer a more comfortable and flexible fit.

KIDS VESTS

The best vest for your child is the one that fits them. A vest that is too big may come off in the water and a vest that is too small may not provide adequate flotation.

THE RIGHT FIT FOR YOUR KID

The easiest way to test this is to put the vest on your child, secure all zippers and buckles and tighten all belts. Once this is done, put your fingers underneath the shoulder straps and pull upwards. If the vest starts to slide over the child's face or head, it means the vest is too big and could slip off in the water.

Alternatively, if you were unable to secure the zippers and buckles, it is time to move up to the next size. With the fitting process complete, you and your family can take to the water wearing the highest quality products on the market.

LIL' SPORT NEOPRENE KIDS VEST

MV1112 (infant) / MV1114 (child) / MV1116 (youth)

For the kids that want to look just like Dad, the new Lil' Sport line offers USCG approved flotation in a kid-size package.

FEATURES

- Supportive head pillow (infant only)
- Soft, non-chafing neoprene
- Bright yellow for increased visibility
- Tone-on-tone seahorse graphic

SIZE	MV1112 Infant: up to 30 lb, 18-20" chest MV1114 Child: 30-50 lb, 21-24" chest MV1116 Youth: 50-90 lb, 24-29" chest

ADULT FOAM VESTS

FINDING THE RIGHT VEST

Foam vests are easy to maintain and come in a range of sizes. Key things to consider when choosing your vest are the requirements of your water activities. For example, if you are going to be sitting in your boat all day, you will be most comfortable in a shorter vest that does not ride up when you sit down.

TRY IT ON

Try the vest on before you purchase it, secure and tighten all zippers, buckles and belts to assess the fit. Pay special attention to any chafing or pressure around the neck, collar bone and underarms.

COMFORT IS KEY

Selecting a vest that is comfortable for the entire length of your activity means you are more likely to wear it, and we always say the best PFD is the one you wear.

LOOKING FOR THE FASTEST VEST ON THE MARKET? THE ACCEL100 HAS ARRIVED!

ACCEL100 FISHING VEST

MV4620

Designed and tested by professional anglers, the Accel100 leads speed-rated flotation into a whole new level of quality and comfort. Designed specifically for fishing, it blends functional safety with luxurious comfort.

FEATURES

- 100 mph dynamic strength-tested construction for the ultimate in safety
- Highest available speed-rating on the market
- Fleece-lined collar and hand warmer pockets for chilly mornings
- Segmented foam flexes as you move
- Reduced ride-up while sitting
- 500D Cordura® outer shell provides outstanding durability
- AirSoft™ foam creates a flexible and comfortable fit
- D-ring

SIZE	S-XXXL
COLORS	Red/Black
APPROVAL	Pending Fall 2011

HORSEPOWER NEOPRENE PFD (MEN)
DIVA DELIGHT NEOPRENE PFD (WOMEN)

MV1282 (men) / MV1284 (women)

Made with high-grade neoprene, the HORSEPOWER Neoprene PFD is designed for serious days on the water! With tone-on-tone artwork and one of the most flexible fits you'll find on the market, this PFD is ready for all the horsepower you can handle. New Diva Delight is cut and sized specifically for women.

FEATURES

- High-grade neoprene for soft, comfortable fit
- Triple-secured front closure
- Two waist belts for snug fit
- Split tail reduces ride-up
- Speed rated to 50 mph
- Men's version with tribal seahorse graphic, women's version with mandala graphic

SIZE	Men: XS-XXXL Women: XS-XL
COLORS	Black
APPROVAL	USCG Type III

OASIS PADDLING PFD

MV5800

Made with PVC-free Gaia® foam, this PFD has wide neoprene shoulder straps, large armholes and plenty of reflective tape on both the front and back to keep paddlers of all abilities comfortable and safe on the water. Also features two zippered pockets and front chest attachment point.

FEATURES

- Earth-friendly Gaia® foam offers a flexible fit and is PVC-free
- Neoprene shoulder straps
- Secure pockets
- Attachment point on chest for light, knife or beacon
- 7 adjustment belts for a secure and comfortable fit

SIZE	X/S, M/L, XL/XXL
COLORS	Green
APPROVAL	USCG Type III

NYLON WATER SPORTS VEST

MV1272

An easy wearing water sports vest made with soft PVC foam and high quality nylon to provide the ultimate fit. Three big buckles keep you strapped in for all the day's activities.

FEATURES

- Soft PVC foam front for extra comfort around collar
- Three buckles for secure fit
- Large armholes for shoulder mobility

SIZE	S-XXXL
COLORS	Blue/Black
APPROVAL	USCG Type III

UNIVERSAL FIT ADULT PFD

MV3102

This universal-fit PFD provides incredible versatility for both recreational and industrial boaters alike. The perfect PFD to have onboard for drop-in guests or a rotating work crew.

FEATURES

- 3-adjustment belts and open sides for a flexible fit.
- Fits chest sizes up to 52" (universal)
- Now available in Adult Super Large to fit chest sizes 40-62"

SIZE	Universal Adult, Adult Super Large
COLORS	Red

FLOTATION CLOTHING

Our rugged flotation clothing provides protection from cold and foul weather and offers emergency flotation and insulation in the event of accidental immersion.

Right when you need it the most, our line of coats, jackets and anti-exposure suits are ergonomically designed to provide maximum mobility while protecting you from hypothermia and potential drowning.

Our Airsoft™ flotation foam is just another example of how, for the last forty years, we have been transforming innovative ideas into practical products for protecting users who face hazardous and unpredictable environments every day.

THE MOST WEARABLE FLOTATION COAT ON THE MARKET

CATALYST FLOTATION JACKET & COAT

MJ5224 (jacket) / MC5444 (coat)

We set out to make the traditional Floater Coat™ more comfortable, better looking and overall more wearable. The result? Mustang's NEW Catalyst jacket & coat with the all-new M-Tech Comfort System.

FEATURES

- M-Tech Comfort System provides unparalleled range of motion and mobility
- Waterproof, breathable, tri-laminate outer shell
- Outer shell is waterproof to 10,000mm with vapor transmission rate of 5,000 g/m² per 24 hrs
- Protection from rain and spray without the clammy feeling of traditional flotation jackets
- Field tested by Coast Guard training crews, fishing lodges and Mustang PRO-staff
- Interior pocket, zippered chest pocket and front slash hand-warmer pockets
- Underarm ventilation zippers
- Front cargo pockets (coat only)
- Reflective accents for enhanced visibility
- Integrated hood with reflective trim
- ComfortCuff™ technology
- D-ring

SIZE	S-XXXL
COLORS	<ul style="list-style-type: none"> ■ Black ■ Navy/Black ■ Orange/Black ■ Red/Black
APPROVAL	Pending Fall 2011

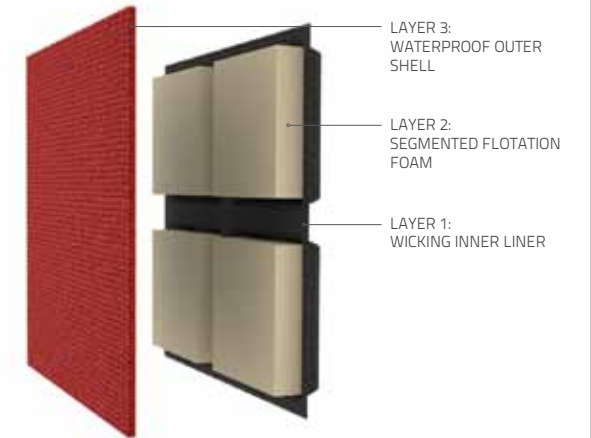

M-TECH COMFORT SYSTEM™

The secret to the most comfortable flotation jacket on the market? The M-Tech Comfort System™: a 3-layer, waterproof, breathable, wearable flotation system.

- 1st Layer: A wicking liner that aids breathability.
- 2nd Layer: Segmented foam that moves and flexes with you.
- 3rd Layer: A waterproof, breathable tri-laminate outer shell that keeps rain and spray in the ocean where they belong.

A jacket that keeps you dry, floats you when you need it and is so comfortable you want to wear it even when you're not on the boat. That's the M-Tech Comfort System™ and it's only available from Mustang Survival®.

INTEGRITY™ FLOTATION VEST

MV3224

Comfortable and warm for cool weather, Mustang Survival's Integrity™ Flotation Vest has large armholes and is waist-length to promote high-movement and layering over other clothing. Its flexible foam construction offers enhanced mobility and the fleece-lined collar and hand-warmer pockets provided an added touch of comfort. Includes an inside pocket for secure storage.

FEATURES

- Flexible foam construction offers enhanced mobility and comfort
- Short, low-profile, fleece-lined collar
- Heavy-duty front zipper
- Highly durable nylon and ripstop nylon
- Two hand-warmer pockets and one inside pocket
- Internal waist belt reduces ride-up
- D-Ring

SIZE	S-XXXL
COLORS	■ Red/Carbon
APPROVAL	USCG Type III

INTEGRITY™ BIB PANT

MP4225 HX

The Integrity HX bib pant is ideal for those seeking more warmth and weather protection. A great pant to have when the weather turns for the worse.

FEATURES

- HX design is fully seam-taped and uses only fabrics that are hydrostatically tested to surpass water pressures caused by storms
- Ripstop nylon knee and seat reinforcements
- Fleece-lined hand-warmer pockets
- Zippered stash pocket
- Adjustable suspenders for custom fit
- Zippered legs for easy donning over boots
- Provides additional flotation and hypothermia protection

SIZE	S-XXL
COLORS	■ Black/Carbon

THERMAL PROTECTION

In just 20 minutes, cold water can deprive you of all mental and physical capacities, leading to hypothermia, unconsciousness and even death. Our engineers have done extensive research to understand cold-water survival.

SCIENCE OF COLD WATER SURVIVAL

How long a person can survive in cold water depends on the water's temperature, exposure time, and the thermal insulation of the victim's protective clothing.

To create the most effective protection, we evaluate the clothing's insulation (measured with the unit "Clo"). We determine the rate at which heat is lost from the body, and the difference in temperature between the skin and the water. From these values, predictions can be made of the rate a person's body temperature will drop in cold water.

INCREASING SURVIVAL TIMES

Wearing Mustang Survival products can increase cold water survival times. Our products are interlined with our exclusive AirSoft™ closed cell foam. This foam not only provides maximum insulation against the cold, it also keeps you afloat to protect you from drowning.

A CLASSIC FOR 45 YEARS

CLASSIC BOMBER JACKET & COAT

MJ6214 T1 (bomber) / MC1504 (coat)

For over 40 years, the Mustang Floater Coat™ has made quite a name for itself and earned many loyal Mustang wearers. The quality of construction, hypothermia protection, and timeless functional design add up to an unbeatable value no matter where you boat. Standard features for all Classic products include Mustang's High Performance Nylon™ and AirSoft™ foam.

FEATURES

- Hypothermia and flotation protection
- Relaxed fit for mobility and comfort
- Full-length storm-flap
- Internal waist belt to reduce ride-up
- Fleece-lined front pockets (MJ6214 T1)
- Zippered closures on front pockets (MC1504)
