

Boat Crew Dry Suit MSD585 AS or LS

- Lightweight optimizes mobility
- CCS™ Closed comfort system neck seal, or latex trim-to-fit neck seal (user option)
- Lined, trim-to-fit stretch neoprene wrist seals
- Modular collar provides several wear configurations
- Quick donning and doffing with diagonal cross-chest waterproof entry zipper
- Cushioned knees for comfort, extreme-duty abrasion patches on legs and seat
- Breathable laminate and adjustable neck seal for reduced thermal burden in high-stress operations
- Taped watertight seams
- Waterproof zippers pulls are covered to prevent interference with other equipment
- Attached socks integrate with footwear or swim fins

Designed for search and rescue professionals, the Mustang Survival MSD585 is a lightweight waterproof and breathable dry suit constructed to exceed the requirements for seagoing boat operations. The MSD585 can also be used for rescue operations, or any other operation where waterproof breathable dry suits are required.

This deck working dry suit includes Mustang Survival's patented Closed Comfort Neck Seal (MSD585 AS), or a latex trim-to-fit neck seal (MSD585 LS). Both seals have been proven to reliably seal water out in exceptionally rigorous conditions. In the event of accidental or intentional immersion, the adjustable neck seal (any configuration) can be drawn tight to prevent water from entering the suit. Wrist seals are constructed of coated stretch neoprene that provides exceptional watertight integrity and optimal comfort for long duration use.

The fleece-lined storm collar protects the operator from cold wind-driven sea spray and rain and can be folded out of the way when not desired (see back page). The cross-chest waterproof entry zipper provides quick-donning capability and incorporates a T-handle grip for easy opening and closing. The relief zipper opens vertically for easy operation.

The MSD585 incorporates an adjustable heavy-duty elastic waist band that buckles in the front to gather the suit's excess fabric. Five law enforcement belt keepers are positioned to provide maximum stability for carried equipment. The pockets are designed with the operator and equipment in mind. Fleece-lined hand warmers and deep easy access cargo pockets are optimally positioned. An easy access sleeve pocket has also been provided. The calf-mounted pocket accommodates the thermal hood and is easily accessible in overboard situations. 500-Denier Cordura® reinforces the elbows and lower body. Heavy laminate patches reinforce the knee and buttocks areas.

US Patent No. 6,668,386, Can Patent No. 2,381,720
ADJUSTABLE NECK SEAL

Boat Crew Dry Suit MSD585 AS or LS

The MSD585 provides dry suit performance under the most extreme operational conditions. Combining the same patented CCS™ Closed Comfort System neck seal and improved neoprene wrist seals found on our MSD900 with a waterproof, windproof, breathable fabric designed to reduce heat stress and fatigue – the lightweight MSD585 optimizes immersion protection and comfort.

The suit has optional suspenders that ensure optimal fit and mobility. The gauntlet accommodates most gloves and the closures prevent snagging. The reflective tape on the upper and lower arms improves in and out of water visibility. Extra long leg gusset zippers accommodate most boots.

Hypothermia Protection

Hypothermia protection is provided when the Mustang MSD585 is worn with insulating dry suit liners or undergarments. As with any traditional dry suit, thermal performance of the MSD585 Boat Crew Dry Suit is dependent on the type and thickness of the undergarment worn.

Version

MSD585 AS is the standard Boat Crew dry suit with the CCS™ neck seal.
MSD585 LS is the standard Boat Crew dry suit with the latex trim-to-fit neck seal.

Collar Wear Configurations

The collar may be worn in any of the three configurations.

Sizes

Size	Height (in)	Chest (in)	Height (cm)	Chest (cm)
XS	61 - 65	33 - 36	155 - 165	84 - 91
S	64 - 68	36 - 39	163 - 173	91 - 99
M	67 - 71	39 - 42	170 - 180	99 - 107
L	70 - 74	42 - 45	178 - 188	107 - 114
XL	73 - 77	45 - 48	185 - 196	114 - 122
