

**ICE COMMANDER RESCUE SUIT (IC9001 03)**

The Mustang Ice Commander® is the suit of choice for search and rescue teams, fire departments, and ice rescue professionals. The modular suit is completely waterproof with a water tight hood, integrated gloves, and attached boots. The flotation and insulation performance of zip-in buoyancy liner allows users to immerse themselves for long periods of time in icy cold water and maintain mental and physical capabilities.

Each Ice Commander® has an integrated chest harness for attachment to tether lines, ice awl pockets for storage, rubber gloves, reinforced knees and non-slip rubber soles on the attached boots. As well, each suit is 45% lighter than other rescue suits as it is made in a high visibility welded nylon shell. Updated liner with zipper and velcro attachments allow easier removal for cleaning and repair.

SOLAS reflective tape

Heavy duty full-length zipper provides a water-tight seal

Integrated self-adjusting safety harness

Integrated insulated gloves with textured palms provide abrasion resistance and superior grip

Neoprene face guard reduces risk of water entry

Detachable closed-cell AirSoft™ foam inner buoyancy liner provides maximum flotation and thermal insulation. Updated liner attachment with zipper and velcro allows easier removal for cleaning and repair

Pockets easily secured with Velcro®

Ergonomic ice awl pockets - sleeve pockets designed to attach and stow ice awls

High performance urethane-coated nylon exterior makes cleaning and repairs easier

Neoprene knee reinforcement and padding improves protection and grip

Note: The Ice Commander is intended for still/static cold water rescues only by trained professionals with the required and approved operating standards and requirements of their state or country.
