FOR 50 YEARS MUSTANG SURVIVAL HAS BEEN ENGINEERING HIGH-PERFORMANCE MARINE GEAR FOR MILITARY, COAST GUARD, AND RESCUE PERSONNEL. WITH A FOCUS ON APPLIED RESEARCH AND FIELD TESTING, WE’RE COMMITTED TO THE PROTECTION AND ENHANCEMENT OF THOSE WHO PUSH THEMSELVES TO EXTREMES. WE BUILD GEAR THAT SAVES LIVES AND FUELS EXPLORATION.

SAVING LIVES SINCE 1967
WE’VE BEEN KEEPING SPECIAL OPERATIONS TEAMS AND OTHER MILITARY GROUPS DRY FOR OVER 20 YEARS. OUR SUCCESS IS BASED ON A SIMPLE PHILOSOPHY:

**MAXIMIZE PRODUCT PERFORMANCE TO OPTIMIZE HUMAN PERFORMANCE**

THAT MEANS YOU STAY WARM WHEN IT’S COLD, AND COOL WHEN IT’S HOT, REDUCING WEIGHT AND BULK TO IMPROVE THE GARMENT’S BREATHABILITY AND OVERALL MOBILITY.
To select our waterproof, breathable materials, we put more than 40 materials through a barrage of hardcore laboratory testing.

A select few rose to the top, enabling us to provide our customers with the ultimate performance in waterproofness, breathability and durability.
"THROUGHOUT ALL OF OUR DESIGN DECISIONS, WE STRIVE TO INTEGRATE SHAPE, LINE, TEXTURE AND COLOR WITH INSPIRED TECHNICAL SOLUTIONS TO PROVIDE THE ULTIMATE EXPERIENCE ON THE WATER."

The Mustang Survival team is deeply passionate about life on the water; a world of beauty, power and humility, for us it is the ultimate frontier.

We operate with the vision to build powerful experiences & stories by equipping serious users with inspired technical solutions for challenging marine environments. Our hope is to create a trusted connection between the individuals who live in this frontier and our products, through a blend of desirability and functional innovation that lead toward the ultimate experience.

The 2018 collection was designed with a core focus on minimalism to allow the active waterlife enthusiast to focus on the task at hand without encumbering or hindering the movement or experience. This plays out in subtle design features and sophisticated manufacturing techniques.

We also leverage color as part of the complete design approach, to create a balance of aesthetic appeal, performance and overall relevance to the situation.
THIS YEAR’S CORE COLORS:

Our core colors for 2018 were inspired by our two color personas: the Amped Athlete and Nature Distilled. The Amped Athlete creates energy through high visibility and high contrast, while Nature Distilled focuses on subtle colorways that speak to the outdoor environment.

- **ADMIRAL GRAY** A sophisticated neutral. Not your typical black or gray.
- **GREEN MOSS** Matches the environment and language of fishing.
- **MAHI YELLOW** Inspired by the amped athlete. A distinct evolution on traditional high-visibility, combining desirability and safety.
- **RED** With a deep marine heritage, red captures attention and is the color of extremes, passion, energy and adventure.
- **AZURE BLUE** A high energy color that reflects athletic and outdoor culture.
CORE TO OUR STRATEGY IS DEVELOPING A STRONG UNDERSTANDING OF OUR USERS, THEIR ENVIRONMENTS AND THE DAILY EXPECTATIONS THEY SET FOR THEIR ACTIVITIES.

To maintain relevance and drive innovative solutions, we have developed a diverse network of field testers throughout North America. We conduct continuous product feedback trials and actively invest in research initiatives in the recreation, industrial, public safety and military markets.

While there are many use cases for Mustang Survival products, the two things our enthusiasts and operators have in common is that they all spend time on, near or above the water, and they depend on us to enhance their experience.
CURTIS BLEWETT

Having served as a bowman on some of the most prestigious sailing vessels in the world, Curtis has put our products through the ringer with regards to the mobility, breathability and durability of the EP Ocean Racing Collection and – new for 2018 – the Offshore Sailing Collection.

Based out of the Pacific Northwest, he travels around the globe to train and compete with elite sailing teams in some of the most extreme conditions the oceans have to offer.

DAVE MERCER

Host of television’s Facts of Fishing® THE SHOW and Bassmaster Emcee. Dave spends over 250 days a year on the water.

Providing early insights and inputs into Mustang Survival’s R&D process, Dave has been a trusted field tester and advocate for over 12 years.

Pushing our team to innovate in the areas of heat stress and overall comfort, Dave provided critical insight into the design of the Elite™ 28 Inflatable PFD chassis.

MIKE McCLELLAND

A four-time Elite Series winner, Mike McClelland has been part of our team for 10 years. Over that time, Mike has challenged us to design easier-to-wear flotation, to expand on our military technology and product platforms for the consumer market and has most recently put our Traction Glove line through rigorous and extended field testing.

Mike spends over 200 days per year on the road, traveling to various fishing tournaments, retail days and sponsor activities.

RICHARD CLARKE

A four time Olympian, passionate sailing ambassador and a core member of the Comanche crew, Richard is a peak performer who tests, wears and uses multiple products from the EP Ocean Racing Collection.

After winning the 2015 Sydney Hobart Yacht Race, breaking a race record in the Newport-Bermuda Race and smashing the Trans-Atlantic world record, Richard has provided critical and candid feedback on materials, fit, features and overall performance.
Engineered on the belief that fishermen deserve unhindered mobility, performance and comfort. Our angling products leverage our 50 years of experience to support the requirements of the most demanding users. Whether its testing construction strength at speed and height by dropping products from a helicopter, incorporating patented zipper technology first designed for fighter pilots, or investing in hundreds of hours of field testing to ensure unparalleled performance; fishermen know that when they want the best, they can trust Mustang Survival.
Built to withstand the most severe conditions the ocean can create, this gear has been put to the test by the world’s elite sailors. Through a major Gulf Stream weather system, a trans-Atlantic world record and 25’ waves in Red Bull’s Flying on Water catamaran mission, crews were able to stay dry, warm and comfortable, enabling them to focus on the task at hand to preserve the safety and performance of their crew.

Core components of the sailing assortment include seamless integration of all products, marine-grade materials, innovative manufacturing techniques and a focused design effort around fit and function.

Empowering kayak anglers to tackle long days on the water in tough conditions to attain premium performance.

As one of the fastest growing outdoor activities in North America, kayak fishing presents an opportunity to expand on anglers’ existing trust of Mustang Survival PFDs by building out our dry apparel and gear programs.

Designed with a minimalist philosophy, every component has a functional purpose for delivering the ultimate advantage, and is embedded as discretely as possible to reduce interference with rods, reels and other equipment.

With decades of experience keeping our military servicemen and women dry, every seam line and design element has been meticulously planned, tested and thrashed, to ensure it can hold up to rigorous days on the water in severe conditions.
With a mission of delivering the ultimate user experience on the water through inspired technical solutions, the waterlife assortment presents a balanced mix of comfort, confidence and protection for those that love life on the water.

Driven by a system integration approach, we can outfit users head to toe in a completely integrated system to best support their experiences in any environment.

Backed by our commitment to testing and quality, waterlife enthusiasts can trust Mustang Survival to deliver more than just a brand name; we deliver products that empower them to achieve great moments and memorable adventures.
Commercial and industrial mariners have long known they can trust Mustang Survival for premium safety and enduring quality. With the highest quality standards in the industry, our products have been cited by many as reducing overall cost of ownership and improving worker performance.

Our range of heat management solutions from flotation clothing for cold environments to inflatable PFDs for reduced heat stress and enhanced buoyancy, and our diverse product line provides trusted solutions to support the needs of today’s versatile workforce.
TECHNICAL APPAREL AND OUTERWEAR
EP 6.5 OCEAN RACING DRY SUIT

MODEL NUMBER  MSD500

SIZES  S-XXL

FEATURES  - Engineered using Military-Grade GORE-TEX® fabrics and an Aquaseal® waterproof zipper, this Dry Suit offers complete waterproof, breathable protection. Fully seam sealed and with a waterproof high-vis hood, breathable waterproof socks, and neoprene wrist seals, nothing gets in.
  - Built with breathable Military-Grade fabrics and Cordura® 1000D reinforcements in constantly abused areas, this hard-wearing dry suit can stand up to the most extreme conditions.
  - Multiple adjustment points, including our CCS™ Exoskin® Neck Seal, allow for ease of adjusting fit as conditions dictate and padding in the knees, minimal sock seams, and fleece lining remove troublesome spots.
  - Articulated elbows, Cohaesive™ cinch adjusters, integrated suspenders, and a waist cinch.

EP 6.5 OCEAN RACING JACKET

MODEL NUMBER  MJ6510

SIZES  S-XXL

FEATURES  - High-vis GORE-TEX® hood, face shield, cinch collar and adjustable Exoskin® wrist cuffs, this wind-proof and breathable waterproof jacket, built with Military-Grade GORE-TEX® fabrics, keeps your core completely dry for days on end.
  - Cordura® 1000D reinforcements. The reinforced hanging loop protects the jacket from damage when hanging and can even take the weight of an arrested fall.
  - Utilizing the Cohaesive™ cord lock system for adapting fit, a 1-way waterproof Aquaseal® zipper, and a soft fleece lined neck for warmth and chafe reduction.
  - Superior range of motion without the bulk of a traditional jacket; articulated elbows, a bottom cinch, and slit sleeve cuff openings offer a fine-tuned fit.

“It’s clear that this outerwear was built to spend long hours, days and weeks in the world’s toughest ocean conditions.”

— Pacific Yachting Magazine

*NOTE: OUR CCS NECK SEAL IS COVERED BY US PATENT 6668386 AND CDN PATENT 2381720*
EP LITE OCEAN RACING SPRAY SMOCK

MODEL NUMBER | MJ6500
SIZES | S-XXL
FEATURES
- This GORE-TEX® Pro minimalist waterproof smock lets you work hard and stay dry. Our Sharkskin Neoprene waist gasket has been glued in to create a watertight seal.
- Fully seam sealed GORE-TEX® Pro and 1000D Cordura® reinforcements create a durable, high-activity smock.
- Quick adjusting capabilities of CCS™ neck seals and Exoskin® adjustable cuffs, venting can be locked down when conditions turn wet, yet activity remains high.
- The enhanced athletic cut of the Spray Smock streamlines from shoulder to waist allowing the waist gasket to be fully waterproof through the addition of gluing. Adjustable waist tabs allow for further refinement of fit.

EP 6.5 OCEAN RACING SALOPETTES

MODEL NUMBER | MP4500
SIZES | S-XXL
FEATURES
- Built with Military-Grade GORE-TEX® fabrics and Aquaseal® zipper for complete waterproofness when integrated with the jacket or smocks.
- Cordura® 1000D reinforcements in the seat and knees provide 10X the durability over standard reinforcement.
- When worn with our jacket or smock, the low profile salopette shoulders provide no interference and superior comfort over bib style pants. The 2-way YKK™ Aquaseal® zipper allows for flexibility in venting and, because of its waterproofness, removes excess fabric found with traditional zippers.
- A double waist cinch pulls the front of the salopettes in and out of the way when working bent over.
ENGINEERED FOR ACTIVE OFFSHORE RACING, THE MERIS™ SAILING JACKET IS BUILT ON A MINIMALIST CHASSIS, DELIVERING UNRESTRICTED MOVEMENT AND CONNECTION TO YOUR SURROUNDINGS. FROM TOP TO BOTTOM, THIS JACKET IS BUILT TO KEEP RACERS DRY AND COMFORTABLE FOR OPTIMAL RACE PERFORMANCE.

**MODEL NUMBER**  MJ3510

**SIZES**  XS-XL

**FEATURES**
- Fitted hood design turns with the head, and has peripheral view windows, enabling you to view and connect with your surroundings and your team
- AIS/EPIRB shoulder pocket for easy access in an emergency situation
- Neoprene lapping inner cuff system significantly decreases water ingress
- 100% waterproof YKK® Aquaguard® zipper eliminates the requirement for storm flaps, enabling reduced weight and bulk
- Zipped, fleece lined hand warmer pockets
- Low profile cargo pockets keep bulk out of your way
- Exclusive 4-layer Marine-Spec™ waterproof, breathable fabric has been designed and tested to hold up in tough salt-water environments
GEARED FOR ACTIVE RACING, THE MERIS™ SAILING SPRAY TOP IS BUILT ON A MINIMALIST LIGHTWEIGHT CHASSIS, DELIVERING UNRESTRICTED MOVEMENT, QUICK VENTING AND THE DRIEST ADJUSTABLE GASKETS ON THE MARKET.

NEW 2018 TECHNICAL APPAREL AND OUTWEAR
ARC 2PS™ ANORAK

MODEL NUMBER MJ2000

SIZES S-XXL

FEATURES

- Sophisticated streamlined design reduces bulk and snag hazards for enhanced mobility
- Fitted hood design turns with the head for full peripheral vision, enabling you to better view and connect with your surroundings
- High visibility hood with reflective patch allows you to be seen on the water
- Adjustable CCS™ Exoskin® Neck Seal keeps you dry when you need it and comfortable when you are working hard – easily loosens and tightens with one hand
- Fleece lined storm collar for reduced chafing
- Front drop-in chest pockets allow you to quickly stow items while wearing a PFD
- Left arm pocket for easy-access storage of essential items
- Latex wrist seals and over cuffs keep water from running down your arms
- Exclusive 4-layer Marine-Spec™ waterproof, breathable fabric has been designed and tested to hold up in tough salt-water environments
- Wear with ARC 2PS™ Bib Pants for optimal dry and thermal protection

BUILT FOR KAYAK FISHERMEN SEEKING THE ULTIMATE PROTECTION FOR LONG DAYS ON THE WATER, THE ERGONOMIC AND STREAMLINED DESIGN OF THE ARC 2PS™ ANORAK PROVIDES ULTIMATE MOBILITY FOR UNRESTRICTED MOTION AND ACTIVITY. ITS SUBTLE AND EXCLUSIVE DESIGN FEATURES BOOST OVERALL COMFORT SO YOU CAN CONFIDENTLY NAVIGATE ADVENTURES.
ARC 2PS™ BIB PANTS

MODEL NUMBER  MP2000

SIZES  S-XXL

FEATURES
- Adjustable suspenders with low profile buckles for seamless integration with ARC 2PS™ Anorak, and reduced interference with other outerwear or PFDs
- Top drop in-pocket for easy access to core items
- TiZip® MasterSeal 6 waterproof relief zipper reduces bulk while enhancing waterproofing
- Seat and knees are reinforced with 500D CORDURA® with a Durable Waterproof Repellency coating for robust durability
- Thigh pocket is accessible when in a seated position for enhanced functionality
- Integrated dry socks keep your feet warm and dry for complete protection against immersion or wet, nasty days
- High-wearing outsole on dry socks for extended product life span
- Exclusive 4-layer Marine-Spec™ waterproof, breathable fabric has been designed and tested to hold up in tough salt-water environments
- Wear with ARC 2PS™ Anorak for optimal dry and thermal protection

WHEN ADVENTURE HAPPENS IN COLD, WET CONDITIONS, THE ERGONOMIC AND STREAMLINED DESIGN OF THE ARC 2PS™ BIB PANT WILL KEEP YOU DRY AND PROTECTED FROM ALL THE ELEMENTS CAN THROW YOUR WAY. WITH DESIGN FEATURES FOCUSED ON REDUCED BULK, EASY ACCESS AND ULTIMATE MOBILITY, THESE PANTS ARE BUILT TO ENDURE THE ROUGHEST, TOUGHEST DAYS ON THE WATER.

- Cut to reduce bulk, promote articulation, and work with seals and watches, this glove stretches to fit with use. 
- Molded 3mm neoprene on the back of the hand helps keep warmth in and water out as well as providing impact protection when grinding. |

"Mustang Survival Traction Gloves give you Kung-Fu grip."

— Kayak Angler Magazine
### Traction UV Gloves

**Model Number:** MA6007  
**Sizes:** MENS: S-XL  
**Features:**  
- Finger pull tabs with silicon grip for easy doffing  
- Lightweight polyester Spandex knit with UV treated yarns keep your hands protected and cool  
- Extended wrist coverage with pairing snaps  
- Extended index finger reduces blisters and cuts  
- UPF 50 Protection  
- AX Suede™ G-Series palm overlays provide unmatched wet grip and abrasion resistance  
- Cuff pull tab with silicon grip makes it easier to pull gloves on

### Traction Open Finger Gloves

**Model Number:** MA6002 02  
**Sizes:** MENS: S-XL  
**Features:**  
- Finger pull tabs with silicon grip for easy doffing  
- Lightweight polyester Spandex knit with UV treated yarns keep your hands protected and cool  
- Knuckle overlays offer added protection without adding bulk  
- Cuff closure tab with silicon grip and pairing snaps

### Traction Full Finger Gloves

**Model Number:** MA6003 02  
**Sizes:** MENS: S-XL  
**Features:**  
- Fold back thumb, index and middle finger for full dexterity  
- Back of hands are 2.5mm neoprene  
- AX Suede™ G-Series palm overlays provide unmatched wet grip and abrasion resistance  
- Knuckle overlays offer added protection without adding bulk  
- Cuff closure tab with silicon grip and pairing snaps

### Traction Conductive Gloves

**Model Number:** MA6003  
**Sizes:** MENS: S-XL  
**Features:**  
- AX G Series Suede™ palm  
- Full finger design for warmth and protection  
- 30-50% grip improvement in torque testing

### Traction Open Finger Gloves

**Model Number:** MA6002  
**Sizes:** MENS: S-XL  
**Features:**  
- AX Suede™ palm  
- 30-50% grip improvement in torque testing  
- Fingerless design allows for 12% dexterity improvement

**HIGHWATER™ 80L WATERPROOF GEAR HAULER**

**MODEL NUMBER** MA2616

**CAPACITY** 80L

**FEATURES**
- 60L+20L storage capacity: 60L of dry storage plus 20L of additional top storage lets you keep dry apart from wet
- Fully waterproof gear hauler with waterproof construction and materials
- Heavy-duty 420 Denier double-coated nylon that is PVC-free
- Roll top material is a waterproof and PVC-free 210 rip-stop fabric
- Radio frequency (RF) welded seams are watertight
- Three grab handles for easy transport and emptying, and can be used as lash points
- Shoulder straps free up the hands while transporting
- Interior waterproof roll-top closure ensures gear stays dry, with easy to open drawstring closure
- A carry-all bag ideal for extended water adventures, with large size that can easily accommodate a tent, sleeping bag, and pad

**40L/60L WEATHERPROOF DUFFEL**

**MODEL NUMBER** MA2613 / MA2614

**CAPACITY** 40L / 60L

**FEATURES**
- Main material is a heavy-duty 420 Denier double-coated PVC-free nylon
- Waterproof bathtub construction on bottom keeps your gear dry
- Radio frequency (RF) welded seams are watertight
- Water-resistant lid sheds water, and protective storm flap over zipper keeps water out
- YKK® coil zipper with long zipper pulls for fast and easy access
- The internal mesh lid pocket keeps small items organized.
- Removable foam liner protects and cushions gear, and can be used as a seat
- Shoulder straps easily deploy when you need to free up your hands
- Grab handles along the perimeter for easy transport, and sliding in and out of tight spaces
- 40L size meets most size restrictions for aircraft carry on requirements

RECREATION FLOTATION AND ACCESSORIES
MORE THAN JUST PROTECTION, THIS VEST CHANGES THE RULES OF THE GAME BY ELEVATING PERFORMANCE BOTH IN AND OUT OF THE WATER. WITH ENOUGH FOAM FLOTATION TO PROVIDE NEUTRAL BUOYANCY AND A BACK UP MANUALLY-ACTIVATED INFLATION CELL, THE KHIMERA™ 22 PFD PROVIDES VERSATILE FUNCTION WITHOUT COMPROMISING SAFETY.

- Dual flotation system blends the security of foam flotation with the slim profile of inflatable technology
- 8 lb foam buoyancy keeps you afloat without creating bulk
- Pulling the manual inflator boosts you to 22.5 lb of buoyancy – 1.5x traditional foam PFDs
- Lightweight and low profile design offers greater comfort and range of motion, and eases re-entry into your boat from the water
- Adjustable shoulder straps for an improved fit

**RE-ARM MODEL**

RE-ARM KIT ‘G’ MA7116
**EP 38 INFLATABLE OCEAN RACING VEST**

**Model Number**: USA: MD6284  CAN: MD6254

**Approval**: USCG TYPE V with Type II Performance  TC Approved Inflatable PFD (Type II Performance)

**Sizes**: Universal Adult

**Features**:
- ISAF Race Ready (combines Coast Guard approvals and ISAF compliance for ultimate performance)
- Low profile, lightweight chassis cut for active use
- 360 degree motion for high output grinding and sail changes
- Hydrostatic Inflator Technology (HIT™) will only inflate when submerged in 4” or more water, and not in rain, spray, or high humidity
- Discreet manual inflation handle prevents snags
- Back mounted, storable spray hood
- Marine-grade retro-reflective materials and whistle
- Integrated sailing harness with soft tie-in
- Lifting loop
- Internal storage for AIS, PLBs, strobes and other electronics

**Re-arm Model**: RE-ARM KIT “B” MA5283

---

**HIT™ INFLATABLE PFD WITH HARNESS**

**Model Number**: USA: MD3184 02  CAN: MD3154 02

**Approval**: USCG Type V Performance  TC Approved Inflatable PFD (Type II Performance)

**Sizes**: Universal Adult

**Features**:
- Strobe light holder safety whistle and SOLAS reflective tape on inflation cell
- Stainless steel harness rings
- 38 LBS buoyancy when inflated

**Re-arm Model**: RE-ARM KIT “C” MA7214

---

**HIT™ INFLATABLE PFD**

**Model Number**: USA: MD3183 02  CAN: MD3153 02

**Approval**: USCG Type II / Type V Commercial  TC Approved Inflatable PFD (Type II Performance)

**Sizes**: Universal Adult

**Features**:
- Strobe light holder safety whistle and SOLAS reflective tape on inflation cell
- 38 LBS buoyancy when inflated
- Body-armor industry outer shell with reflective accents
- Harness version available: MD3184 02 / MD3154 02

**Re-arm Model**: RE-ARM KIT “C” MA7214

* FYG = Fluorescent Yellow-Green
**ELITE™ 28 / ELITE™28 K INFLATABLE PFD**

- **Model Number**: USA: MDS183 / MDS183 BC / MDS183 KF  
  CAN: MDS153 / MDS153 BC / MDS183 KF
- **Approval**: USCG Type III (Type V Commercial)  
  TC Approved Inflatable PFD (Type III Performance)
- **Sizes**: Universal Adult
- **Features**:
  - Aerodynamic 3D chassis reduces drag at high speeds
  - Shaped for optimum mobility and comfort
  - Wicking mesh liner
  - Discreet handle reduces interference
  - 28 LBS buoyancy when inflated
  - KF Model has MOLLE inspired attachment system for custom configuration of gear (pocket sold separately)
- **Re-arm Model**: RE-ARM KIT "A" MA5183

**DLX 38 INFLATABLE PFD (AUTOMATIC) - DLX 38 INFLATABLE PFD (MANUAL)**

- **Model Number**:
  - Automatic / USA: MD2983  CAN: MD2953
  - Manual / USA: MD2981  CAN: MD2951
- **Approval**:
  - MD2983: USCG Type II / Type V Commercial
  - MD2953: TC Approved Inflatable PFD (Type II Performance)
  - MD2981: USCG Type III / Type V Commercial
  - MD2951 TC Approved Inflatable PFD (Type III Performance)
- **Sizes**: Universal Adult
- **Features**:
  - Automatic inflation model inflates upon water immersion / Manual inflation model inflates by pulling on activation cord
  - AIS compatible to aid searchers in a rescue situation
  - Water resistant zippered side pocket
  - More comfortable fit around neck and back
  - MOLLE inspired attachment system for custom configuration of gear (pocket sold separately)
  - Dual side adjusters provide an easy size adjustment
  - 38 LBS buoyancy when inflated
  - MA7637 1.5" Buckle Belt Extender sold separately
- **Re-arm Model**: RE-ARM KIT “E” MA7114

**MOLLE COMPATIBLE FISHING POCKET**

- **Model Number**: MA0060
- **Features**:
  - Made of molded EVA foam
  - Forcep sleeve on front for easy access
  - MOLLE compatible attachment secures pocket to compatible vests
  - Keep tackle organized with removable divider or easily swap in your own utility box (L 4.6” x W 3.4” x H 1.25”)
  - Inside drop-in pocket with lanyard for keys or other essentials
### M.I.T. 100 Inflatable PFD (Automatic) / M.I.T. 100 Inflatable PFD (Manual)

**HIT™ INFLATABLE LIFE JACKET**

- Model Number: USA: N/A, CAN: MD3157
- Approval: TC Approved Life jacket
- Sizes: Universal Adult
- Features:
  - Durable heavy duty coated nylon outer shell
  - Cylinder is contained within the bladder to protect against corrosion
  - Neoprene Comfort Collar™
  - 38 LBS buoyancy when inflated
- Re-arm Model: RE-ARM KIT “C” MA7214

**HIT™ INFLATABLE WORK VEST**

- Model Number: USA: MD3188, CAN: N/A
- Approval: USCG Approved Work Vest (Type III Performance)
- Sizes: Universal Adult
- Features:
  - Durable heavy duty nylon outer shell
  - 38 LBS buoyancy when inflated
- Re-arm Model: RE-ARM KIT “C” MA7214

**HIGH VISIBILITY HIT™ AUTO-HYDROSTATIC INFLATABLE PFD**

- Model Number: USA: MD3183 T3, CAN: MD3153 T3
- Approval: USCG Type II / Type V Commercial TC Approved Inflatable PFD (Type II Performance)
- Sizes: Universal Adult
- Features:
  - ANSI 107-2004 Class 2 compliant when worn with Diamond Rubber Products 8972 mesh vest
  - Back flap and SOLAS reflective tape
  - 38 LBS buoyancy when inflated
- Re-arm Model: RE-ARM KIT “C” MA7214

**HIT™ AUTO-HYDROSTATIC INFLATABLE PFD**

- Model Number: USA: MD3183 T2, CAN: N/A
- Approval: USCG Type II / Type V Commercial
- Sizes: Universal Adult
- Features:
  - Back flap & SOLAS reflective tape
  - 38 LBS buoyancy when inflated
- Re-arm Model: RE-ARM KIT “C” MA7214
### M.I.T. 100 100 Auto Inflatable PFD with SOLAS Reflective Tape & Whistle

**MODEL NUMBER**  USA: MD2016 T1  CAN: MD2017 T1  
**APPROVAL**  USCG Type III / Type V Commercial TC Approved Inflatable PFD (Type III Performance)  
**SIZES**  Universal Adult  
**FEATURES**  
- Meets Canadian small vessel regulations  
- 500 Denier Cordura® outer shell  
- 28 LBS buoyancy when inflated  
**RE-ARM MODEL**  RE-ARM KIT "D" MA2014

### High Collar SAR Vest with SOLAS Reflective Tape

**MODEL NUMBER**  USA: MV5600  CAN: MV5601  
**APPROVAL**  USCG Type III TC Approved PFD  
**SIZES**  S-XXXL  
**FEATURES**  
- 100 MPH dynamic strength tested (USA only)  
- Two large front cargo pockets with easy to use pull tabs for extra storage  
- 98.75 square inches of SOLAS reflective tape (CAN only)  
- 62 square inches of SOLAS reflective tape (USA only)

### Small Vessel Life Jacket

**MODEL NUMBER**  USA: N/A  CAN: MVC-10 UN  
**APPROVAL**  TC Marine Small Vessel Life jacket  
**SIZES**  Universal Adult  
**FEATURES**  
- SOLAS reflective tape  
- 21 LBS buoyancy  
- Crew Vest Approved to Small Vessel Regulations

### Work Vest with SOLAS Reflective Tape

**MODEL NUMBER**  USA: MV3192  CAN: N/A  
**APPROVAL**  USCG Type III/V Work Vest  
**SIZES**  Universal Adult  
**FEATURES**  
- Type V Work Vest  
- SOLAS reflective tape  
- Fast-tab to attach required equipment
### 4-One Solas Vest

**Model Number:** MV8035 / MV8040  
**Approval:** USCG SOLAS, TC SOLAS, MED SOLAS  
**Sizes:**  
- Child: 33-95 LBS  
- Adult: 95 LBS+  
**Features:**  
- Compact storage  
- Easy to don  
- SOLAS grade reflective tape  
- Only device on the market with 4 approvals

![4-One Solas Vest](image)

### Classic Industrial Vest with 2 Pockets & Radio Pocket

*SEE "CLO" MEANING ON PAGE 53*
HYPOTHERMIA PROTECTION
In just 20 minutes, cold water can deprive you of all mental and physical capacities, leading to hypothermia, unconsciousness and even death. Our team of engineers have done extensive research to understand cold-water survival. How long a person can survive in cold water primarily depends on the water’s temperature, exposure time, and the thermal insulation of the victim’s protective clothing.

SURVIVAL TIMES
This graph indicates random samples of Clo values and the corresponding estimation of survival time in calm water (assuming a thin person with a 5.5°F [3°C] drop in core temperature).

WHAT IS A “CLO” & WHAT DOES IT MEAN?
“Clo” is a measurement of the thermal insulation of a suit or device. One Clo represents the thermal comfort of an average person in business clothing in a room temperature indoor environment. Fractions of this thermal insulation are what are perceived when worn in the water. Each of the values are below 1.0 because water transfers heat out of the body 25 times faster than air. Wearing a Mustang Survival suit will increase cold water survival time exponentially.

2018 MARKETING & PROMOTIONS CALENDAR

Mustang Survival uses a blend of trade and consumer marketing to drive positive media coverage, earn awareness for new product introductions and to generate consumer demand. Core elements of this program include:

Advertising
Leveraging a blend of print and digital media across multiple markets, we are able to share elements of the Mustang Survival story in relevant and compelling ways. This drives brand awareness, product awareness and an overall cohesiveness to our messaging. We have longstanding partnerships with BASS, CarecoTV, Kayak Fishing Magazine and Wired2Fish, and are designing interactive campaigns with several sailing media and influencers.

Digital Influencers
Launched in the fall of 2016, our digital influencer program now includes over a dozen social media personalities driving thousands of impressions per month. Influencers are selected based on their connection to our target markets, the size and quality of their following and their alignment with our brand messaging and beliefs.

Pro Athletes
Pro athletes enable us to design authentic and meaningful solutions for the most demanding users. We are proud to work with some of the most respected athletes in the fishing and sailing industries, including Curtis Blewett, Dave Mercer, Mike McClelland and Richard Clarke.

Public Relations
We work with Momentum Media Public Relations to garner both endemic and non-endemic editorial coverage. This includes positioning Mustang Survival as an industry expert for research and best practices stories, inclusion in product gear guide reviews and overall amplification of brand messaging and news.

Sponsorships
Strategically selected sponsorships provide an enhanced presence and perspective of the Mustang Survival brand, while at the same time gaining compelling visual assets. Examples include Red Bull’s Flying on Water Mission (fall 2016), IFA Kayak Tour and Cabela’s Collegiate Bass Fishing Series.

Television & Radio
The above programs earn us exposure on television and radio stations across the USA and Canada, including NBC Sports Network, Outdoor Channel, Pursuit Channel, World Fishing Network, Global Television and Time Warner Cable SportsChannel.

RETAILER PARTICIPATION

To ensure participation in these activities, please work with your Mustang Survival sales representative as part of your booking order placement to confirm participation in the 2018 Merchandising Fixture Program, to ensure appropriate support for boat shows and other consumer events (including signage, digital assets, etc), to arrange for in-store opportunities with our pro athletes and activation partnership opportunities within our sponsored events.
2018 MERCHANDISING

Our new modular merchandising solutions enable flexible configurations that can scale to the size of your store. This approach supports a strong presentation that can be customized according to product assortment, stocking levels and store layout.

Additional benefits are the ability to showcase new products with brand storytelling support, ease of set-up and the ability to drive a high dollar per square foot ratio.

Please ask your Mustang Survival sales representative for more information on the 2018 Merchandising Fixture Program.
MUSTANG SURVIVAL EXCLUSIVE TECHNOLOGIES

**3D CHASSIS**
Exclusive to the Elite™ Inflatable PFD. Creates a slim profile to enhance mobility, fit securely and reduce neck fatigue. Wind-tunnel tested to improve the body’s aerodynamics, reduce drag at speed and limit wind interference.

**CLOSED COMFORT SYSTEM™**
Adjustable neck seal that can be worn loose when out of the water and tightened for immersion. Designed to optimize comfort in constant wear situations.

**COMFORT COLLAR™**
Made of exclusive Mustang Survival materials to improve comfort around the neck, reduce chafing and encourage all-day wear.

**COMFORT CUFF™**
Made of exclusive Mustang Survival materials to improve comfort around the wrists, reduce chafing and encourage all-day wear.

**HYDROSTATIC INFLATOR TECHNOLOGY (HIT™)**
Water-pressure activated inflation. The inflator will automatically inflate under water pressure and not inadvertently in rain, spray or humidity. Inflates only when submerged in 4 or more inches of water.

**M-TECH™ COMFORT SYSTEM™**
A 3-layer, waterproof, breathable, wearable flotation system that keeps you dry, floats you when you need it and is so comfortable you’ll want to wear it even when you’re not on the water. The first layer is a waterproof, breathable outer shell, the second layer is segmented foam that flexes and moves with you and allows moisture to transfer away from the body and the third layer is a wicking liner that aids breathability. Included in the Catalyst Flotation Coats, Jackets and pants.

**MARINE-SPEC™**
Engineered for the marine environment, Marine-Spec™ fabrics have been through extensive field and laboratory testing. Mustang Survival’s rigorous testing has proven Marine-Spec™ waterproof fabric to be an excellent choice for protection from the elements in marine environments.

Available in a 3-layer and 4-layer fabric, multiple technical fabric layers are fused together to achieve the best blend of durability, waterproofness, and breathability. Together, these technical fabrics provide a shield from water and wind, while allowing sweat to escape, for peak dry performance and comfort during active use.

**MEMBRANE INFLATABLE TECHNOLOGY™**
An ultra-lightweight inflation cell fabric that reduces product weight to create a lighter and more flexible fit.

**MOBILITY BASED SIZING™**
A sizing and fitting platform exclusive to the Sentinel™ Series Dry Suits. Based on more than two years of extensive anthropometric research, range of motion testing and user evaluations, Mobility Based Sizing™ offers users a semi-custom suit that reduces bulk and increases range of motion without the expensive custom price tags or long lead times. Applies to all Mustang Survival dry suits beginning with MSD6--.

**RAPID REPAIR TECHNOLOGY™**
Enables users to self-replace neck and wrist seals in an hour or less, and repair minor leaks in the dry suit shell.

**SECUREZIP™**
A self-healing zipper originally designed for military aviators. Creates a lighter weight, lower profile and more secure fit. Breaks out effortlessly upon inflation and heals itself upon repacking.

**TUG-TITE™**
Adjusters designed to be easy to use with cold or gloved hands to improve fit and reduce water flushing.
